• Thematic Pathway for Reaffirmation (TPR) of accreditation
• The institutional review process
• The institutional self-study and report
• Commission action
• Tools and resources
Changing Context for Accreditation

• Greatly increased expectations for institutional accountability and consumer protection

• Demands for improved academic standards and student performance (as measured by retention, graduation rates and post-graduation job placement)

• New fiscal realities making cost-effectiveness a paramount issue forWSCUC and its constituents

• Calls for risk-based assessment, for both low-risk and high-risk institutions
Challenges for Higher Education and Accreditation

- Low graduation rates
- High student debt/high default rates
- Difficulty in transferring credits
- Dissatisfaction with quality of education/low levels of learning
- Rapid growth of online education
- Practices of the for-profit industry
- Increased federal regulation
- Concern about the value of higher ed
Challenges for Higher Education and Accreditation (continued)

• Changing demographics, including older, working, more diverse students
• Swirl: majority of students attend more than one institution
• Open source and Do-It-Yourselfers (DIY)
• Momentum for competency-based programs
• Shrinking support for public universities and trend to privatization
• Strong consumer demand for degrees leading to jobs

A Learning Curve

FROM:
Expecting programs to describe assessment processes

TO:
Asking for the results of these assessments
Another Learning Curve

FROM: WSCUC expecting programs to set standards for student learning

TO: WSCUC asking for evidence that students also achieve those standards
FROM:
Evidence that the institution acts on findings and can show improvement

TO:
Also asking “Is this good enough? How do we know? What means do we use to establish standards of performance or proficiency?”
